

NitrogenExpressLiquid

N19-P0-K0-S0

A specially formulated liquid nitrogen combined with fulvic acid to increase N uptake in the leaf stem and roots.

The special formulation will also assist in increasing the efficiency of the nitrogen and help reduce volatilisation.

20L

HuMatesTM
HIGH PERFORMANCE **ORGANIC HUMATE**

Before using Nitrogen Express read label carefully.

APPLICATION RATES FOR GROUND USE

RATE SOIL CROPS	APPLICATIONS	MINIMUM WATER RATE	COMMENTS
Pasture / Turf	10-20L /ha	40-80L / ha	When a boost in growth is required.
Kiwifruit	20-30L /ha	100-120L/ha	Immediately after harvest and once again in early stages of fruit development.
Grain Crops	10-20L /ha	80-200L/ha	Mid to late tillering and prior to flowering.
Brassicas	5-10L /ha	80-100L/ha	As required during growth phases. Not after 8 weeks prior to grazing.
Vegetables	5-8L /ha	80-100L/ha	Monthly after emergence.
Citrus	10L /ha	400L/ha	Late autumn for spring growth. Non bearing trees to meet growth flushes.
Maize	10-15L /ha	80-150L/ha	According to requirements or at about 50cm and again before tussling.
Pip / Stone Fruit	5-10L /ha	400L	Post-harvest and prior to leaf drop.

MIXING INSTRUCTIONS

1. Agitate contents before dilution.
2. Half fill spray tank with water.
3. Add Nitrogen Express Liquid while maintaining agitation.
4. Fill spray tank to full volume with water while maintaining agitation.

APPLICATION GUIDELINES

Can be applied by boom spray, aerial spray and central pivot. Water rates will vary according to crop type growth stage and area, above are guidelines only. Ensure that adequate water rates are applied to provide complete crop coverage. Split applications will often produce best results and reduce likelihood of foliage damage. The above application rates are guidelines if there are concerns about effectiveness or potential to burn increase water rates. Applications are best in cooler weather. Do not apply in the heat of the day. Apply as soon as possible.

STORAGE AND HANDLING

Keep only in original container, tightly closed and away from foodstuff. Store locked up in a cool and dark place out of the sun.

DISPOSAL

Dispose of contents by spraying out. Rinse container in water and dispose at plastic recycling point. New Zealand Humates is a member of Agrecovery so please take empty triple rinsed containers to an Agrecovery site.

EXPIRY

Use product within six months of opening.

WARNING

Causes serious eye irritation. Hazardous to Terrestrial Vertebrates. Wash hands thoroughly after handling. Wear safety goggles and coveralls while mixing and applying.

FIRST AID: If medical advice is needed, have product container or label at hand. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. If eye irritation persists: Get medical advice/attention. If poisoning occurs call National Poison Centre 0800 764 766.

LIMITED WARRANTY

Use only as directed on label and with suitably qualified advice. New Zealand Humates Ltd (NZH) accepts no liability for incorrect storage, handling or application, or for weather, plant, or soil conditions affecting performance. NZH accepts no responsibility for third-party statements. To the extent permitted by law (a) all warranties or guarantees are excluded (b) NZH shall not be liable for events or matters beyond its control or indirect or consequential loss of any kind (c) NZH's liability shall be limited to (at our option) the value of the product purchased or replacement of defective product.
